(NAME & ADDRESS)

SAFETY NOTICE

U. S. Safety has determined that two (2) production lots of 91030 Blaze 3.0 IR frames have a small percentage of frames that do not meet the requirements of ANSI Z87.1-2010 and CSA Z94.3-2007. Our records show that you purchased some 91030 after 4/27/12, the date that would have been relevant for these two lots. Photos showing the shipper labels displaying the lot numbers 77469 and 77667 are attached (shown as PO: 77469 and PO: 77667). These are the two lot numbers in question. If you have either of these two lot numbers, remove them from your stock and call Vickie Moore for an RGA number referencing this Safety Notice. U.S. Safety will replace the returned quantity at no charge or credit the return, whichever you prefer. Please notify your customers if possible for their return of product as well. If you are unable to identify the lot numbers but the shipper label, we will still accept the return.

Please write "SAFETY NOTICE" on the returned goods and enclose a copy of this notice with the goods.

Our records indicate that you purchased the following:

Qty XXX, Invoice date xx/yy/zz

Please call Vickie Moore (913-599-5555 X296) or Marc Cooper (913-599-5555 X254) or email vmoore@ussafety.com or mcooper@ussafety.com to confirm the receipt of this notice.

We sincerely apologize for any inconvenience this may cause.

DIVISION OF PARMELEE INDUSTRIES, INC.

Thank you.

Marc Cooper
