TO SEI NOCSAE PARTICIPANTS:

**SEI Certification Bulletin #16 – Hardware, Field Hockey
and Lacrosse Ball Standard Test Fees**

Hardware and Field Hockey Standard Test Fees

This bulletin will serve as an announcement to SEI NOCSAE Participants that we have recently obtained test fees for three NOCSAE standards that were approved by the NOCSAE Board of Directors at their January 2016 meeting. The NOCSAE standards are:

NOCSAE ND015-15m16: Standard Test Method and Specification Used in Evaluating the Corrosion Characteristics and Effects on Metallic Hardware Disassembly

NOCSAE ND061-14: Standard Performance Specification for Newly Manufactured Field Hockey Headgear

NOCSAE ND069-14m16: Standard Performance Specification for Newly Manufactured Field Hockey Balls

In accordance with SEI's procedures, we have attached the testing laboratory fee schedules for the above mentioned NOCSAE standards. Please note that SEI has negotiated the attached fees with Chesapeake Testing Lab, ICS Laboratories and Southern Impact Research Center (SIRC) for these particular NOCSAE certification programs. However, SEI will add a 10% surcharge to the prices listed in the attached fee schedule to the final invoice that you receive from SEI, which is generated when testing is completed.

Lacrosse Ball Standard Test Fees

This bulletin also serves as an announcement to SEI NOCSAE participants that the NOCSAE Board of Directors did preliminarily approve the revised lacrosse ball standard, **NOCSAE ND049-15m16 Standard Performance Specification for Newly Manufactured Lacrosse Balls**, at their June 2016 meeting. Assuming the NOCSAE Board of Directors approves the June 2016 meeting minutes at their January 2017 Board of Directors meeting the revised lacrosse ball standard will be effective June 2017. All lacrosse ball models shall be certified to the NOCSAE ND049-15m16 no later than June 30, 2017. SEI has confirmed with our approved testing laboratories for NOCSAE lacrosse ball certification testing that their test fees will not change as a result of this standard revision.
